PRINCIPALS CORNER

Dear Schooners,

It's all about School Spirit the week before spring break!

Thank you for supporting your children in drumming up strong school (and community)

spirit this month! While we're having fun and engaging in some healthy competition, we are also raising funds for a local non-profit and having a food drive for our local pantry.

We aim to feel good and do good! Here's a visual ...

In addition to this list we are collecting non-perishable foods, coins and small bills (via the "penny war") and creating recycled art work in the school.

Thank you for your ongoing support as we head into the third and final trimester of the year! We look forward to seeing you at some of our many spring and year end events!

Best,
Jaime Stone

The environmental club will be staging a contest: students will go to the website of their power company and ask their parents to sign in, then they will record their KWH (kilowatt hours) per month at the beginning of the month of April, students will then do things like turning lights off when they leave the room and unplug electronics and record their KWH per month at the end of April and submit the results to a google form. The environmental club will then review the results and whoever can save the most energy gets a prize! Good luck!

PI DAY CELEBRATION!

Pi day was celebrated in a variety of ways. The kitchen made pumpkin pie for the students at lunch and some of the teachers participated in an apple pie making contest. Nurse Gretchen won! Thank you Jaime Stone and Christina Young for judging the pie contest for us! We had our first annual pi day assembly which included a visit from "Albert Einstein" (Sam Snow) and "Pi" (Avery Weeks) who told super funny pi jokes and mc'd the assembly. A big thank you goes to the 6th graders who held up applause and cheer signs to get the crowd going and thank you to Mrs. Burwell's 7th grade students who entered the gym showing off the hats they made in FCS. All students had the opportunity to participate in a pi reciting contest. Anyone who recited pi up to ten digits won a Sea Dogs ticket for the May 24 game. The grade winners of the contest had the opportunity to "pie" their math teachers. It was so messy, but the students enjoyed themselves!

Eva Vickerman memorized 334 digits of pi!

CRMS BAND AND CHORUS AT THE MAINE CELTICS GAME!

Students from the CRMS Band and Chorus performed the National Anthem with the Camden Hills Regional High School band and chorus students at the March 23rd Maine Celtics Game. This was a lovely opportunity for our students to showcase their talents and see what it's like to perform the Star Spangled Banner to a sold out crowd. Students also enjoyed some bowling and arcade games at Round One in the Maine Mall.

CONGRATULATIONS! Thomas Kunkel was awarded an Honorable Mention by the judges at the 2023 National Conservation Poster Contest titled, Watersheds: One Water. There were over 370 posters submitted. The judges said, Thomas communicated a strong conservation message using creative and effective visuals. Congratulations, Thomas!

SIXTH GRADE SOCIAL STUDIES • BOOM OR BUST!

In Social Studies classes embarked on a fantastic trip. The journey led them through the turbulent times of the 1920s and 1930s. The students competed in teams to earn as much money as they could as they navigated their way around a huge “life” game board. Eighty questions that focused on our country during this time challenged the teams to use the resources throughout the library. Scattered around the board were Pit Stops and Roadblocks. When a team landed on one of these squares they proceeded to the workstation and completed a task that introduced new content and new skills.

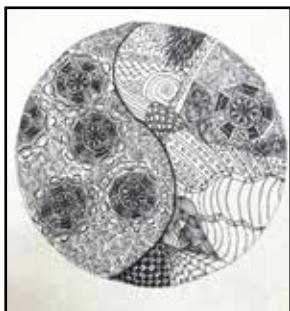

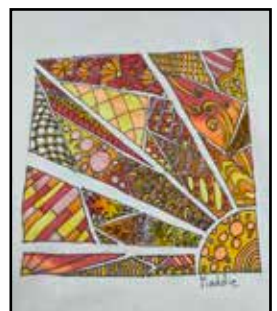

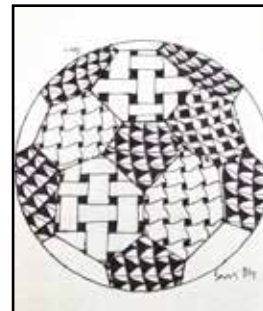

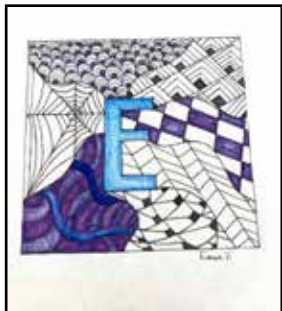

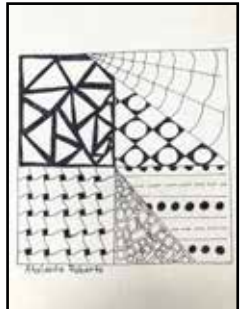

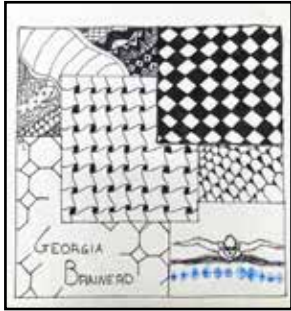

Throughout all the activities, teams earned “Boom or Bust” bucks. Teams made decisions on whether to invest in the stock market, make deposits in the local bank, or simply hide their money under a mattress. How did it all end up? Ask your 6th grader!

Special thanks to Christina Young, our librarian extraordinaire, for hosting all the classes and co-teaching the unit.

In FCS 7th grade students have been busy creating their own Zentangle-based design for the fabric of their bag and the results are stunning and unique! It has been a challenging new extension for this group and allows students to personalize their sewing project and make it truly "one of a kind." Take a look at some of the designs students have created!
